Professional Summary

- **Backend Developer** with hands-on experience in building RESTful APIs, modular services, and database-driven applications using Java and Spring Boot. Skilled in clean architecture, database design, and API integrations for enterprise-level systems

Education

- **Theem College of Engineering** **Mumbai, Maharashtra**
Bachelor of Engineering in Computer Science Engineering
Dec 2022 – May 2025
- **K. J. Somaiya Polytechnic** **Mumbai, Maharashtra**
Diploma in Computer Engineering
Jul 2020 – May 2022
Percentage: 75.10
- **Swami Vivekanand High School** **Ulhasnagar, Maharashtra**
School Secondary Certificate
Jun 2017 – Mar 2018
Percentage: 74.20

Technical Skills

- **Languages:** C++, Python, **Java (Core & Advanced)**, SQL
- **Frameworks:** Spring Boot, Spring MVC, Spring Data JPA
- **Databases:** PostgreSQL, MySQL
- **Tools:** Git, Postman, IntelliJ IDEA, **Eclipse IDE**.
- **Concepts:** REST API Development, Entity Relationships, Microservices Basics, Exception Handling

Experience

- **Trainee Software Engineer – Backend | Suraj Informatics Pvt. Ltd.** **(May 2025 – Present)**
- **Contributed to multiple enterprise-grade Spring Boot projects including Port Management System, SIPL Tracker, Fitness Manager, and Diary Management Application.**
 - Designed and implemented REST APIs and service layers using Spring Boot and JPA.
 - Developed modular entity mappings and optimized database design in PostgreSQL.
 - Collaborated with frontend teams (React) for API integration and testing through Postman.
- **Live Projects at Suraj Informatics:**
- **Port Management System:** Developed backend modules for cargo manifest, berth scheduling, and agent management.
 - **SIPL Tracker:** Built employee attendance, leave tracking and Excel report export modules in Spring Boot.
 - **Fitness Manager:** Created APIs for user management and fitness tracking features with secure authentication.
 - **Diary Project:** Implemented entity-driven design for diary entries, groups and settings modules with full CRUD operations.
- **Web Development Intern | Internship Studio** **(May 2024 – Jul 2024)**
- Built responsive UI with React and JavaScript, reducing load time by 20%.
 - Mentored junior interns and ensured cross-browser compatibility.
- **Web Development Intern | Canyfix** **(Jul 2024 – Aug 2024)**
- Developed user interfaces using React Hooks and Redux.
 - Implemented accessibility and responsive UI best practices..

Projects

- **Satark: – Anomaly Detection through Surveillance Videos** **(Jan 2024 – May 2024)**
Built a real-time CCTV anomaly detection system using TensorFlow/Keras (CNN-LSTM).
- **Indian Sign Language Detection** **(Jan 2023 – May 2023)**
Developed an AI-based sign language recognition model to assist speech and hearing-impaired users.
- **Grievance Redressal Portal** **(Aug 2024 – Dec 2024)**
Full-stack portal using React.js and Node.js for simplified complaint resolution.
 - Created a **full-stack portal** to simplify grievance resolution for workers and employees.

Courses & Certificates

- C++ for Everyone: Programming Fundamentals
- Core Python for Everyone
- **AWS Academy Graduate – Data Engineering (AWS Academy)**

Achievement

- Recognized for contributing to multiple live Spring Boot projects at **Suraj Informatics**.
